

comob
FIT OUT

COMO is a Qatar-based company which has been operating since 2006 following and contributing to the construction boom in the country. COMO offers a full range of architectural and fit-out services in different industrial sectors.

A supportive management team, a highly skilled workforce and a technologically competitive equipment and approach to adapt to technological advances have given COMO the edge in providing quality service, healthy and safe work place which also considers environmental conservation and protection.

Our project teams maintain a strong foundation of trust and mutual respect generated through positive relationships with clients, architects, engineers, contractors, sub-contractors and suppliers. A company-wide policy encouraging shared performance responsibility ensures the highest degree of professional service and results on all projects undertaken.

The Company has built a base of loyal clients on the strength of our reputation for service and competitive costing. COMO's success in the construction, fit-out and modular building sectors is due in part to our commitment to teamwork.

Building a wide range of projects for a diverse client base. Each project encompasses both the high quality and value that COMO brings to each of its buildings.

Integrated Management System

COMO IMS Policy Statement

COMO is committed to providing services to our Clients which ensures best quality in our services whilst endeavoring to protect the environment in consideration with security, health and safety of employees and all others that might be affected by our operations thru the following:

- Establish, Maintain and Continual improvement of our IMS System (ISO 9001, ISO 14001 & OHSAS 18001).
- Ensure Compliance with current & future relevant IMS Legislations.
- Identifying and understanding the needs and expectations of interested parties.
- Identify and reduce environmental, health and safety hazards in our work activities.
- Enhancement of employee competencies thru trainings and proper information dissemination.

A document titled 'Integrated Management System Policy' from COMO. It features the company logo at the top, followed by a commitment statement, a list of six compliance goals, and a signature of the General Manager.

Integrated Management System Policy

COMO is committed to providing a services to our Clients which ensures best quality construction services whilst endeavoring to protect the environment in consideration with security, health and safety of employees and all others that might be affected by our operations.

To attain compliance we shall:

- Seek to establish, maintain and continually improve our Integrated Management System (IMS) in reference with the requirements of ISO9001:2015 (Quality), ISO 14001:2015 (Environmental) and OHSAS 18001:2007 (Health and Safety).
- Ensure compliance with current and future IMS legislation as applicable, relating to our operations, and any other initiatives or requirements to which Como may subscribe.
- Identify and understand the needs and expectations of all interested parties to comply on obligations and continually improve our IMS performance, prevent accidents and cases of work related ill health and maintain safe and healthy working environments.
- Identify and seek to reduce significant environmental aspect, health and safety risks, and prevent any pollution which may arise from our processes, operations and work activities.
- Empowering our employees by providing appropriate information and training to enhance and build their competencies by encouraging them to apply good practice both at work and at home;

COMO management is geared towards the periodical review, maintain documented information and to achieve objectives for the continual improvement of the Integrated Management System and to ensure relevance and applicability to the company and fulfill the commitments made in it.
